

# Host a **Productivity Seminar** and Get On the Fast Track to Save Time and Money

If you're serious about saving money, then one of your best strategies is getting organized.

## Think about this....

- The average person spends one hour each day searching for misplaced information. That's a huge dollar figure in lost profitability.
- For every email we send, we get three in return.
- Spending 3 hours each day on email equals 22 weeks per year of nothing but email.
- 80% of paper we file is never referenced again.

## How We Can Help

Our **Seminar Program** will have an instant impact on your business. We teach you tools and strategies you can implement immediately that will affect your bottom line and boost productivity.
